

## Understanding Runway Stop Bars

**Pilots must comply with the following when stop bars are in operation:**

1. Only proceed past a stop bar when ATC provides the appropriate verbal instruction AND the stop bar light is extinguished.
2. Ensure at least one member of the crew is able to sight the stop bars (generally Co-Pilot)  
Never cross an illuminated stop bar, only proceed past a stop bar when ATC provides the appropriate verbal instruction AND the stop bar light is extinguished.
